

# New York State Voter Information on The DS200 Precinct Ballot Scanner

## Scanning Instructions

Paper Ballot Scanning Instruction	
<p>Once your ballot is completed, it is time to scan it.</p> <p>Scanning your ballot in the DS200 is easy. But, remember, if you need assistance; don't hesitate to ask your helpful inspector.</p>	
<p>Many elections provide on-screen messages in multiple languages. In this case, select the language of your choice by touching the corresponding button on the display screen.</p>	
<p>The ballot may be inserted into the ballot slot in any orientation.</p>	
<p>If you have any questions regarding your ballot, please ask an Inspector for clarification <i>before</i> inserting your ballot into the DS200.</p>	
<p>After inserting your ballot, check the display screen to see if there are any error messages.</p>	
<p>If the ballot message is <b>Blank Ballot or Over Voted Ballot</b>, press <b>Don't Cast — Return</b> on the touch screen to get the ballot back to make changes.</p>	
<p>If you'd like to submit your ballot as-is, select <b>Cast Ballot</b> on the touch screen.</p>	
<p>If the ballot is damaged and not accepted by the scanner, return it to the Inspector for replacement.</p>	<p>Use damaged ballot graphic</p>
<p>To complete the process and cast your ballot, press the <b>Cast Ballot</b> button.</p>	

The display screen notifies you when your ballot has been cast successfully.

Your ballot is stored in the secure ballot box.
